JAVA FULL STACK DEVELOPER – FRESHER

CAREER OBJECTIVE

Motivated and passionate Java Full Stack Developer with strong knowledge of Java, Spring Boot, ReactJS, SQL, and modern web technologies. Seeking an entry-level software development opportunity to apply my technical skills in designing and developing scalable web applications while continuously learning and contributing to organizational growth.

TECHNICAL SKILLS

Programming Languages

Java, JavaScript, Python, C

Frontend Technologies

HTML5, CSS3, JavaScript, ReactJS, Bootstrap, Tailwind CSS

Backend Technologies

Core Java, Advanced Java, Spring Framework, Spring Boot, Spring MVC, REST APIs, Hibernate, JDBC, Servlets

Database Technologies

MySQL, MongoDB, PostgreSQL, H2 Database

Spring & Java Concepts

Spring IOC, Dependency Injection, Spring Beans, Spring Annotations, Autowiring, Spring Data JPA, Exception Handling, Spring Security, JWT Authentication, Spring Batch, WebFlux Basics

Testing & Tools

JUnit, Mockito, Swagger, Maven, Gradle, Postman

Software Concepts

OOPs, Collections, Exception Handling, MVC Architecture, RESTful Services, Monolithic & Microservices Architecture, Design Patterns

Version Control & IDEs

Git, GitHub, Eclipse, IntelliJ IDEA, VS Code

CERTIFICATIONS

Java Full Stack Development Certification – GUVI

ACADEMIC PROJECTS

Real Estate Property Management Application

Technologies: Java, Spring Boot, ReactJS, MySQL, Cloudinary, JWT, Swagger

Developed a full stack real estate application for property listing, property management, and customer interaction

Implemented secure authentication and authorization using Spring Security and JWT

Integrated Cloudinary for property image upload and cloud-based media management

Designed RESTful APIs with proper exception handling and validation

Implemented Swagger documentation for API testing and endpoint management

Performed end-to-end backend testing and frontend integration

Developed responsive frontend components using ReactJS and Tailwind CSS

Used MySQL and Spring Data JPA for database management and optimized query handling

E-Commerce Web Application

Technologies: Spring Boot, ReactJS, MySQL, Razorpay, Cloudinary, JWT, Swagger

Built a secure full stack e-commerce platform with product management and order processing features

Implemented user registration, login authentication, and role-based authorization using JWT

Integrated Razorpay payment gateway for online payment processing

Used Cloudinary for storing and managing product images

Developed REST APIs with Swagger documentation for easy testing and maintenance

Implemented exception handling, validation, and secure API communication

Performed integration testing and backend functionality testing using Postman and JUnit

Developed responsive frontend UI using ReactJS, Bootstrap, and JavaScript

Movie Ticket Booking System

Technologies: Java, Spring Boot, ReactJS, MySQL, Razorpay, Cloudinary, JWT

Developed a movie ticket booking application with real-time booking and seat reservation functionalities

Implemented secure login and authentication using Spring Security and JWT

Integrated Razorpay payment gateway for ticket payment transactions

Used Cloudinary for managing movie posters and media uploads

Created RESTful APIs for movie management, booking workflows, and user operations

Implemented API validation, exception handling, and Swagger documentation

Conducted end-to-end testing for booking flow and backend service integration

Built responsive frontend pages using ReactJS and modern UI components

EDUCATION

B.Tech – Civil Engineering

Sri Vasavi Engineering College | 2018 – 2022
CGPA: 8.08

Intermediate – MPC

Aditya Junior College | 2016 – 2018
Percentage: 94.1%

SSC

Bhashyam Public School | 2015 – 2016
CGPA: 8.8

SOFT SKILLS

Problem Solving

Quick Learner

Team Collaboration

Communication Skills

Adaptability

Attention to Detail
